

Heavy Duty Basket

Accessory for the Solo Rescue® Decon Washer

The **Heavy Duty Basket** is used at all times when using the Solo Rescue Decon Washer. When paired with other accessories it enables you to wash anything from SCBAs, facepieces, boots, gloves, helmets and even smaller parts such as regulator's and pressure connectors.

One **Heavy Duty Basket** is always included when you purchase a Solo Rescue Decon Washer. If you however want to create what we call a Free Flow System. A Free Flow System naturally separates your wash area into a clean and a dirty side and maximizes flow in the decontamination process as it allows for multitasking. By filling or emptying one basket while the other is being decontaminated you will minimize waiting time and speed up the process (see separate product sheet for more info about the Free Flow System).

WARNING! RESCUE Intellitech disclaims any and all liability for any damages or injury to persons, property or otherwise resulting from (i) inaccurate or insufficient instructions by a PPE manufacturer with respect to the use of the Solo Rescue®, (ii) use of the Solo Rescue® in a way that does not correspond with the washing instructions of the relevant PPE manufacturer, or (iii) where no such instructions exist, use of the Solo Rescue® without the user contacting the PPE manufacturer to receive such instructions or information. Failure to follow these instructions can result in damage to the equipment, and the loss of warranty. Using the wrong detergent and dosing may also damage the Solo Rescue® machine and void all warranties.
