

Small Parts Holder

Accessory for the Solo Rescue® Decon Washer

The **Small Parts Holder** for the Solo Rescue® Decon Washer enables you to wash and decontaminate even the small parts of your PPE such as disassembled breathing valves and regulators. It is always used together with the heavy duty basket and you can place up to two Small Parts Holders in one heavy duty basket.

Simply disassemble your equipment according to your manufacturer's instructions and place the separate parts in one of the appropriately sized baskets. Put the top cover in place to secure the parts from being able to get thrown out during the wash cycle.

WARNING! RESCUE Intellitech disclaims any and all liability for any damages or injury to persons, property or otherwise resulting from (i) inaccurate or insufficient instructions by a PPE manufacturer with respect to the use of the Solo Rescue®, (ii) use of the Solo Rescue® in a way that does not correspond with the washing instructions of the relevant PPE manufacturer, or (iii) where no such instructions exist, use of the Solo Rescue® without the user contacting the PPE manufacturer to receive such instructions or information. Failure to follow these instructions can result in damage to the equipment, and the loss of warranty. Using the wrong detergent and dosing may also damage the Solo Rescue® machine and void all warranties.
